PROFESSIONAL SUMMARY

Full-stack engineer and product architect with a Master's in Computer Science Engineering and a track record of shipping production-grade systems across web, mobile, and ERP. Builds end-to-end platforms from React/Next.js frontends and Laravel/FastAPI backends to Odoo ERP deployments for clients in Cameroon and beyond. Strong command of AI integration (RAG, ML pipelines) and a hands-on approach to the full product lifecycle: requirements, architecture, implementation, and delivery.
